

Fetch products with optional support for pagination, category filtering, collection filtering, and search queries.

Query Parameters:

Parameter	Type	Required	Default	Description
limit	Number	No	10	Number of items per page.
page	Number	No	1	Current page number.
category	String	No	-	Filter by category. Pass the category slug.
collection	String	No	-	Filter by collection. Pass the collection slug.
query	String	No	-	Search products by product name, category name, or collection name.

Examples:

- **Pagination Only:**

GET /products?limit=5&page=2

- **Filter by Category:**

GET /products?category=7edafbfb32b72af5d6d37ffa573edb77

- **Filter by Collection:**

GET /products?collection=e72889dc8bdc6bc5a66206e2959c23bc

- **Search by Query:**

GET /products?query=Dry+Fruits

- **Combined Example:**

GET /products?limit=8&page=1&query=Saffron&category=7edafbfb32b72af5d6d37ffa573edb77

Response Body:

```
{
  "status": "success",
  "message": "Products fetched successfully",
  "data": {
    "totalPages": 1,
    "currentPage": 1,
    "limit": 10,
    "products": [
      {
        "slug": "...",
        "title": "...",
        "subtitle": "...",
        "rating": "...",
        "image": "...image url...",
        "category": "...",
        "collection": "..."
      }
    ]
  }
}
```
